

Explanation of the Portfolio Website

This portfolio is a cyberpunk-themed DevOps personal site designed using HTML, CSS, and JavaScript. It contains animated interactive UI elements and highlights DevOps skills and projects.

MAIN FEATURES:

1. Navigation bar with social icons.
2. Hero section with typewriter animation created in JavaScript.
3. Terminal-style window simulating a Linux environment.
4. HUD statistics grid showing skills and progress.
5. Project cards with spotlight hover effect using CSS variables and JS mouse tracking.
6. Scroll reveal animations triggered by viewport position.
7. Learning timeline representing career growth.
8. Responsive design for mobile screens.

TECH USED:

HTML - Layout structure

CSS - Neon cyberpunk theme, effects, animations, responsive grid

JavaScript - Typewriter, spotlight mouse effect, reveal on scroll

PURPOSE:

To visually demonstrate DevOps learning projects and attract recruiters by showcasing practical ability and modern UI design.
